

Dear parents / guardians

Due to the COVID19, to avoid risks, students will not share materials for this coming school year. Exceptionally for 2020/2021 school year, there is a change on the way of purchasing and collecting contribution for art material.

The best way to avoid contact for safety reason is that students bring their own material, in class in a bag, and when the lesson is over they will take it along or put it their locker. Thus, parents should buy the materials listed here under (attached).

Please pay attention to your child's class, for it varies from different levels. During the school year, some materials might be required according to the students' need. Moreover, the school will provide different types of papers and materials for the entire year.

You can find these materials in the one of specialized shops proposed by art teachers, with reduction for our school, (mentioning the school LUX II).
